10. In case anyone has any problem during the exam time, the problem can be posted in the Help Desk option. If the problem is found to be genuine, a reasonable solution can be given later. So, the problem should be informed or posted on the Help Desk during the exam time and not after the completion of exam time.
11. Students should keep some rough paper and pencil with them during the exam to do any calculation or for solving Math and Science problems if any.
12. **PRACTICE EXAM / MOCK TEST** – Each student is encouraged to take mock test to practice for online exams and to check the compatibility of her/his device to be used for exams. It will be essential for students to use a Smart Phone/PC/ Laptop with internet connectivity.

15. After answering each question, click **NEXT** button to go to the next question. If a student wants to change the answer of the previous question, it can be done only before clicking the **NEXT** button. When you click the **NEXT** button, there will be a message prompt that will confirm whether you are sure. Click yes or no accordingly. Each answered or unanswered questions will be automatically recorded after the time limit set for each question.
16. After clicking the last **NEXT** button, a message of successful submission will appear on the screen.
17. Please do not double click on any **NEXT** button, otherwise the system will skip the next question & will show next to next Question. For example, after answering the 1st Question, if you double click on the Next button, the 2nd question will be skipped and the 3rd question will appear and you will not be able to answer the 2nd question.

All the best to all the students!!
